LEISURE SUIT LARRY MEETS PASSIONATE PATTY

Tired of the same old dating scene? Have you heard or used every pickup line ever uttered by a swinging single? You're not alone. Larry Laffer is just like you.

Lounge lizard extraordinaire, Larry has looked for love and come up dry. But now he's about to meet his match. In a resort on the sun-swept beaches of a tropical island, Larry meets Passionate Patty, a nightclub singer who has searched for the man of her dreams. And searched. And searched.

Will Larry finally settle down? Will Patty be able to look past his polyester suits to see the vulnerable, sensitive soul beneath? Of course not! Larry is as shallow as ever, except now he's really in love. So don't be surprised if he acts shockingly human once in a while.

If you're familiar with the first two *Leisure Suit Larry* games, you're in for a surprise. Instead of portraying Larry throughout the game, you can switch viewpoints and become Patty. So when you're tired of being a nerd and a loser in the romance department, you can try life as a voluptuous sex kitten.

The action in *Leisure Suit Larry Meets Passionate Patty* is definitely PG-13. Expect the same risqué dialogue and silly, off-color situations that made the other *Larry* games hits with adults.

HINTS & TIPS

- Keep an eye on the ground, and don't accept any wooden statues.
- When all else fails, read the game manual. It's much more important than in other Sierra games.
- As Passionate Patty, remember: Clothes bring success.
